>>> 425 DX NEWS * MAILING LIST PROBLEMS <<<

The 425 DX News new team of volunteers is working on fixing the mailing list problems and updating the web site, but the period of transition is not over. Thanks to the help provided by the Mediterraneo DX Club, the more recent issues of 425DXN (from #700 onwards) are available at <http://www.mdxc.org/425dxn.asp>. Those who are interested in receiving the bulletin by e-mail can subscribe to the MDXC Mailing List (subscriptions can be made on-line at the URL above). Many thanks for your patience and continuing support!

>>> VU4NRO AND VU4RBI * ANDAMAN & NICOBAR ISLANDS <<<

Bharathi Prasad, VU2RBI [425DXN 702] reports that on 19 November a special permission was granted for a legal amateur radio operation to take place from the Andaman & Nicobar Islands under the callsigns VU4NRO and VU4RBI.

The permit covers the period 3-31 December 2004 and the authorization is for Bharathi (team leader) and other four operators - namely D. N. Prasad/VU2DBP, D. S. Varun Sastry/VU3DVS, S. Ram Mohan/VU2MYH and R. Sarath Babu/VU3RSB.

There are no firm answers yet as to what bands/modes nor what rigs/antennas. At all events, "this effort will not be a mass arrival of crack operators with tons of gear", Charles Harpole (K4VUD/VU3CHE, k4vud@hotmail.com) says. This is a pilot project and "in a year, if we all behave and have patience, Andaman could be much more open to ham radio visits or an on-going presence".

Bharathi is working on this project with the NIAR (www.niar.org), and donations can be directed to the National Institute of Amateur Radio (e-mail niarvu4@gmail.com for the details). Donations can also be sent to Charles Harpole, K4VUD/VU3CHE (3100 N. Hwy. 426, Geneva, FL 32732, USA), who undertakes to use any and all of them to assist this DXpedition via the NIAR.

>>> NAVASSA (KP1) & DESECHEO (KP5) <<<

The following is a summary of recent releases circulated by Carl Smith, N4AA (Editor of QRZ-DX), Bernie McLenny, W3UR (Editor of The Daily DX) and Michael Thomas, NA5U (Lone Star DX Association).

US Congressman Nick Rahall (Democrat of West Virginia), ranking member of the U.S. House Committee on Resources, has agreed to sponsor a bill that in effect would force the US Fish and Wildlife Service to allow occasional DXpeditions to either Navassa and Desecheo. The FWS has heretofore turned down every recent DXpedition effort to these places based on what the bill's sponsors believe to be erroneous interpretation of the law governing wildlife refuges. The bill, which is co-sponsored by Congressman Richard Pombo (Republican of California), was introduced on 16 November as Bill # HR 5361.

This is the result of a group effort led by attorney Brad Farrell, K4RT and Michael Thomas, NA5U. At least 30 other DXers and a number of DX groups are assisting to move the legislative effort forward.

DXers all over the US are invited to contact their respective Congressmen as soon as possible, and ask for their support of Bill # HR 5361. A sample letter can be found at <http://www.dailydx.com/int2E.DOC>. You can find your Congressman's name at <http://www.house.gov/writerep/> and his snail mail address at <http://clerk.house.gov/members/index.html>.

Brad Farrell, K4RT has also filed an appeal with a federal court, seeking review of the agency's closure of the islands to amateur radio. Judicial review will be prolonged and costly, and the Lone Star DX Association, the primary DX organization associated with this effort, is helping raise needed funds. As the host organization for the project, the LSDXA has donated \$500 to a fund it will administer to help pay for the costs of moving the effort forward in Congress and in court. If you or your organization would like to help, please send your donation to the Lone Star DX Association c/o Jim Bass, K5KQI, 2709 Monarch Dr., Arlington, TX 76006. Mark your donation for the "Navassa-Desecheo Project." News updates, additional information and resources can be found at <http://www.dxer.org>.

ANTARCTICA MAP ---> A very nice map of Antarctica, published by the Australian Antarctic Division, can be seen on the Mediterraneo DX Club's web site (www.mdxc.org/antarctica). Antarctica Award Manager IZ8CGS says that it will be sent as a free to those who request the Antarctica Award.

HS72B ---> The HS72B CQWW & Special DX Operation [425DXN 706] team has already received very generous donations, but still needs help to complete this project and bring the RAST club station on line with permanent full performance stations. Some ten days ago Ray Gerrard, G3NOM/HS0ZDZ (RAST international Vice President and station manager for HS0AC and HS72B) suffered a severe heart attack. He is still hospitalized, and unfortunately his conditions are far from being encouraging, but the project goes on: "we need you best wishes & prayers for Ray and your economic support for the club station he spent so much time building for RAST", Robin, WA6CDR says. "Please

send any funds you can to WA6CDR for NA, or DL3DXX for EU, or to HS0AC (RAST) for AS, QRZ addresses good. We will personally acknowledge each donation when we return in mid December". Anyone who would like to send their wishes for Ray's recovery may send a message to dx@thai.com [TNX WA6CDR]

NOT THE MANAGER ---> Francisco, EA7FTR reports that "a station in the CQWW DX SSB Contest, LQ5H, stated to QSL via EA7FTR. He states this is incorrect, and he is NOT the QSL Manager". [TNX OPDX Bulletin]

NOT THE MANAGER ---> Ken, K4ZW says he is receiving bureau cards for JT1CO and other JT stations for which he is not the QSL manager.

NOT THE MANAGER ---> Patrice, F6JOB is receiving cards for F6EPY's past DXpeditions (YJ0APY, ZK1EPY, 5W0DA), but he is not the QSL manager for Dominique. The current QSL route for these activities (2001 and 2002) is via F6COW. Please note that Dominique is going to operate again as ZK1EPY and then as FO/ZK1EPY [425DXN 705]; the QSL route for the 2004 operations is via home call. [TNX F5NQL]

QSL BX3AC ---> With immediate effect, Phil Whitchurch, G3SWH is the new QSL manager for Bill Luo, BX3AC. Cards will be accepted and replied to either direct or via the RSGB bureau. E-mail requests for bureau cards can be sent to phil@g3swh.demon.co.uk [TNX K1XN and The Golist]

T33C VIDEO ---> The T33C (Banaba 2004) video package includes a DVD record of the expedition (including details of the radio operation and scenes of Banaba and its people) and a second disc containing still photographs of Banaba and many of the Powerpoint slides that were shown in June at Friedrichshafen. All proceeds will go toward paying off the expenses of the expedition. On-line ordering details are at http://www.dx-pedition.de/banaba2004/order_dvd.htm [TNX K6SRZ]
